

EMPHNET

The Eastern Mediterranean
Public Health Network

EEL

EMPHNET Electronic Library

EMPHNET Electronic Library (EEL)

Why an E-Library?

EMPHNET is committed to developing new solutions and building on existing ones to enable and support public health professionals in the region. Within this role, it launched the EMPHNET Electronic Library (EEL). EEL is a regional resource specifically serving field epidemiologists and public health professionals in the Eastern Mediterranean Region (EMR).

What Benefits Does EEL Offer?

- It serves as a resource for field epidemiologists and public health professionals in the EMR and beyond.
- It provides its users with access to resources and tools that will advance their research and practices.
- It spreads public health education and information across the region.
- It contributes to bridging the information-to-action gap.

Who is it For?

- FETP Residents, Graduates, and Teams.
- Field Epidemiologists and Public Health Professionals in the region and beyond.
- Students and anyone interested in Field Epidemiology and Public Health.

What Would You Find in EEL?

- Different E-Books, E-Journals, and Databases
- FETP Publications
- Documents published by EMPHNET

EMPHNET Publications

EEL contains a section dedicated to documents published by EMPHNET and its partners. This unique content is now made available and open to EEL's users to benefit their practice and research. It contains:

- 150+ documents and publications
- Organized and categorized based on subject
- Type of Documents:
 - FETP Publications
 - Abstracts
 - Case-studies
 - Reports
 - Handbooks
 - Manuals
 - And more

Available Resources

- Research4Life (AGORA, ARDI, OARE)
- Iris WHO
- Global Index Medicus
- Virtual Health Sciences Library
- Epidemiology Books
- Infectious Diseases Books
- Journal of Epidemiology and Global Health
- International Journal of Public Health
- And much more...

Keep Checking EEL for New Resources and Updates!

GHD|EMPHNET: Working Together for Better Health

Global Health Development (GHD) is a regional initiative created to support countries in the Eastern Mediterranean Region (EMR) and to strengthen their health systems to respond to public health challenges and threats. GHD was initiated to advance the work of the Eastern Mediterranean Public Health Network (EMPHNET) by building coordinating mechanisms with Ministries of Health, International Organizations and other institutions to improve population health outcomes. As an implementing arm to EMPHNET, GHD aligns its strategies with national policies and directions. Serving as a collaborative platform, GHD|EMPHNET is dedicated to serve the region by supporting national efforts to promote public health policies, strategic planning, sustainable financing, resource mobilization, public health programs, and other related services.
